### PROJECTS:

#### [USER-MANAGEMENT-APPLICATION :- \( https://lalit-user-management-application.netlify.app \)](https://lalit-user-management-application.netlify.app)

As a skilled React.js developer, I successfully designed and developed a web application that enables users to manage user data efficiently. This application allows users to add, delete, and update user information with ease.

#### **Key achievements and responsibilities include:**

- Designed and implemented a user-friendly interface using React.js for seamless user interactions.
- Developed functionalities to securely add new user data, ensuring validation and data integrity.
- Implemented robust features for deleting user data, with confirmation prompts to prevent accidental removal.

## **BUDHBAZAR :- ( <https://lalit-budhbazar.netlify.app> )**

I have successfully developed a full responsive e-commerce web application using React.js, which allows users to seamlessly add items to their cart and delete items from their cart. Additionally, users receive real-time notifications in the navbar when they click the "Add to Cart" button.

### **Key achievements and responsibilities include:**

- Leveraged React.js to create a visually appealing and highly responsive user interface that ensures a seamless shopping experience across various devices and screen sizes.
- Developed robust functionalities that enable users to effortlessly add items to their cart, improving the overall user experience.
- Implemented efficient features that allow users to easily delete items from their cart, enhancing user control and customization.
- Integrated a notification system that provides real-time updates in the navbar, enabling users to receive immediate feedback upon adding items to their cart.
